

## **GOUPE ADF CONFIRMS ITS LEADERSHIP IN THE INDUSTRY SECTOR WITH THE ACQUISITION OF NOVEXA GROUP:**

### **A COMPLETED AND UNIQUE OFFER OF SERVICES ON THE EUROPEAN MARKET**

In line with the 2025 strategic plan « ONE Bud'Jet », Groupe ADF confirms its growth strategy with the acquisition of Novexa Group this February. This reinforces the maintenance engineering expertise with unique expertise on the European market and opens up new global opportunities.

Novexa brings its reprofiling expertise that allows treating, on site and without disassembly, transmission and guidance components on rotating tubes. This major challenge in the industry applies particularly to the materials (steel, cement, and mining) and health and wellness (aroma, agro, roasting) sectors.

This globally recognized expertise confirms the deployment of Groupe ADF to the international scale (Europe, America, and Africa) with the aim of achieving 200 million euros outside of France by 2025.

Founded in 2001 by Pascale and Fabrice Ziegler, Novexa Group is a company from Rhône-Alpes region (France) of about 50 people and divided into two entities:

- Novexa acts for the reprofiling part on customer sites, whose management will remain centralized within our expertise center, relying on our network of agencies regionally and globally.
- APMG acts for industrial maintenance activities, with a large capacity-machining workshop based in the suburbs of Lyon, reinforcing our presence in the region.

Welcome to all the employees of APMG-Novexa at Groupe ADF.

## ▪ WORDS OF THE PRESIDENTS

« Through this integration, Groupe ADF continues to densify its service offer with a unique expertise in Europe. *It is fully in line with the Total Impact of Ownership for our Clients (T.I.O) concept, which takes into account economic, life cycle and energy consumption issues. We are more than pleased to welcome the expertise and talent of Novexa Group to the heart of Groupe ADF human and industrial adventure . ».*

**Marc Eliayan, President of Groupe ADF**

« We were particularly interested in what Groupe ADF had to offer to develop the potentials present at Novexa Group: *the added value of reprofiling which constitutes a unique valuable proposition and the international reputation that requires establishments in Europe, Africa and America, where Groupe ADF is already present. This also ensures our continuous digital innovations to better serve our customers. The management of Novexa Group joins the shareholders to ensure the dynamism of this project. ».*

**Fabrice Ziegler, President of Novexa Group**
